ELECTROFUSION I.C. ELBOW 45°

For Gas/Water-SDR 11 (ISO S5)

Kimplas Electrofusion 45° Elbows are manufactured in PE 100 Black material and are of SDR 11 rating (PN 16). For exact recommendations on compatibility, for welding with SDR 9 through SDR 21 or PN 6 through PN 16 pipe, refer Kimplas Technical Specifications Manual. Kimplas Electrofusion fittings are suitable for permanently connecting MDPE 80 and PE 100 pipes, both in straight form as well as in coil form.

SPECIFICATION TABLE

d	Product Code	SP	Weight (gm)	D(mm)	H (mm)	L (mm)	FT	CT
20	E20D45BKD	140	55	31	87	55	22	4

STANDARDS

- Complies with EN1555- Part 3 for Gas, EN12201- Part 3 for Water. AS/NZS 4129 for Gas & Water GIS-PL2-Part 4 for Gas
- PE pipe compatibility- IS: 14885, EN 1555-2, IS: 4984, EN 12201-2, ISO: 4437 DIN: 8074, ISO: 4427-2.

COMMON APPLICATIONS

- Make 45° turn on mains and distribution Pipes in distribution network.
- Take branch connection in areas difficult to access, in narrow trenches and House Service Connections.
- Pipe connections with spigot end fittings, pipes stub ends etc.

INSTALLATION

Joint preparation must be done as specified in the installation instructions. Pipe outside surface must be scraped to remove oxidised layer. Before fusing, pipe ends and spigot end of the fittings must be cleaned to remove dirt and Contamination. Complete Installation Manual may be downloaded.

ADVANTAGES

- Standard operating voltage - 40 V.
- Provided with Screws for quick connection of pipes. No need of external clamps.
- Fitting with integral clamping for holding and exact fitment of fitting with pipe.
- More connections with less effort. Save time on site.
- Brings down inventory of tools and associated costs.
- Clearance Fit for ease of installation and removable centre stops for easy repairs.
- Same fusion time for various SDR rated pipes.
- Optimal fusion and cold zone for a strong and sturdy joint.
- Permanent Batch Indicator, Raw Material Type and SDR marking.
- Each fitting individually packed in PE bag to protect against contamination and oxidation.
